

January 10, 2017 (updated list 5.12.17)

Dear members of Nebraska's Congressional delegation,

As business, civic, religious, and non-profit organizations and community leaders dedicated to the strength and stability of Nebraska communities, we urgently call on Nebraska's members of Congress to work with the incoming Administration to pass legislation to protect the Deferred Action for Childhood Arrivals (DACA) program recipients and their families.

We have seen strong statewide support for Nebraska youth with DACA and their families. These young Nebraskans are enthusiastically pursuing their education, dedicating their skills and entrepreneurial spirit, and becoming leaders in their communities. DACA has provided these hard-working young Nebraskans and their families with a measure of stability. They are a critical part of our state's social and economic fabric and are actively contributing to local communities and economies.

We strongly urge you to preserve DACA so that these important community members can continue to work hard as teachers, health care professionals, accountants, counselors, and small-business owners. Retaining DACA is the right choice, both morally and economically, while we wait for Congress to pass updated, common-sense immigration laws.

Legislation securing the safety of those with DACA and their families will continue to uplift the many young people who want to put their talents to use and give back to the only country they know as home.

Sincerely,

ACLU of Nebraska
